A JOINT-VENTURE PROPOSAL

WRACE GROUP · OCTOBER 2026

Twin Towers

Plot 765, Cadastral Zone A00, Central Area, Abuja

TWO TOWERS, ONE GROUND.

12 STOREYS · 4,000 SQM PODIUM · 2 TOWERS

THREE REASONS

Two towers that share one ground floor, and a deck between.

The Central Business District.

Plot 765 sits in Cadastral Zone A00, the Central Area of Abuja: 1.11 hectares on a wide avenue, a few minutes from Eagle Square, the Central Bank and the National Assembly. The address every tenant and every buyer already knows.

PLOT 765 · ZONE A00 · 1.11 HECTARES

One podium, two towers.

A 4,000 square metre ground floor runs the length of the plot: two lobbies, a retail arcade, the parking entry. The towers stand at its two ends, and the deck between them, four metres above the street, carries a running track, a tennis court, a lap pool and a padel court.

4,000 SQM PODIUM · 2,000 SQM DECK · 130 PARKING BAYS

Mixed use that pays.

Each tower gives five office floors of 650 square metres lettable and six residential floors of three apartments, over a glazed base of reception and gym. Offices by day, homes by night, retail at street level: one building, three incomes.

10 OFFICE FLOORS · 36 APARTMENTS · 4 RETAIL UNITS

THE CONCEPT

Where the city meets the deck

2 TOWERS	12 STOREYS
4,000sqm PODIUM	2,000sqm DECK

The proposal places two identical twelve-storey towers at the two ends of a single podium, 100 metres long and 40 metres deep, on Plot 765. The ground floor is one shared room for the whole scheme: double-height lobbies under each tower, four retail units along the avenue arcade, the car-park entry and the back of house. Above it, between the towers, an open-air deck carries the amenities; beside it, behind glass, the gyms.

Floors one to five are offices, three suites of 300, 200 and 150 square metres around a compact core. Floors six to eleven are homes: one three-bedroom and two two-bedroom apartments a floor, each with a separate kitchen and a recessed balcony. One basement parks 130 cars.

Two towers that share one ground floor, and a deck that belongs to both.

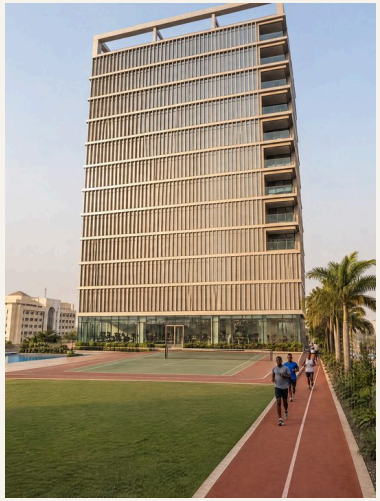

Five parts of the scheme.

01

The podium

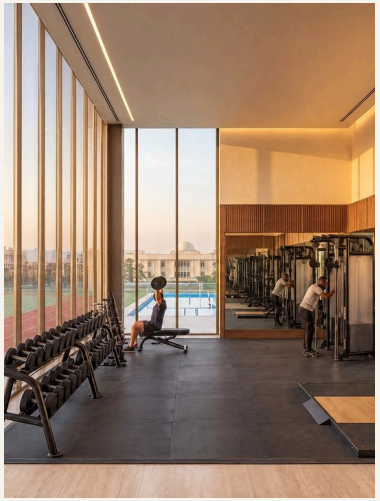

One 4,000 square metre ground floor: two lobbies, four retail units, the parking entry.

02

The deck

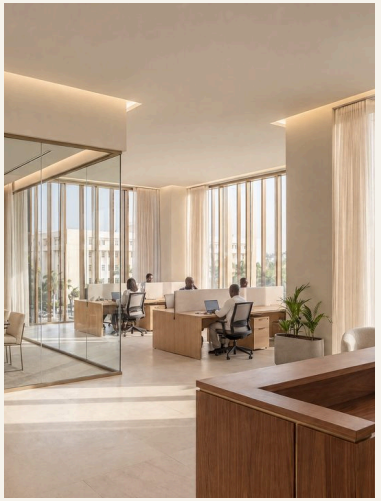

A running track around a tennis court, a lap pool, a padel court and a lawn, four metres up.

03

The gyms

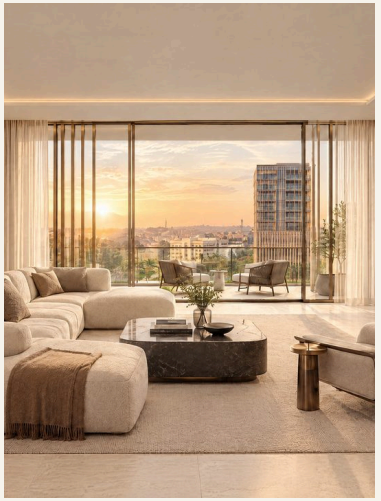

Two glass-walled gyms on the mezzanines: weights in one tower, spin and studios in the other.

04

The offices

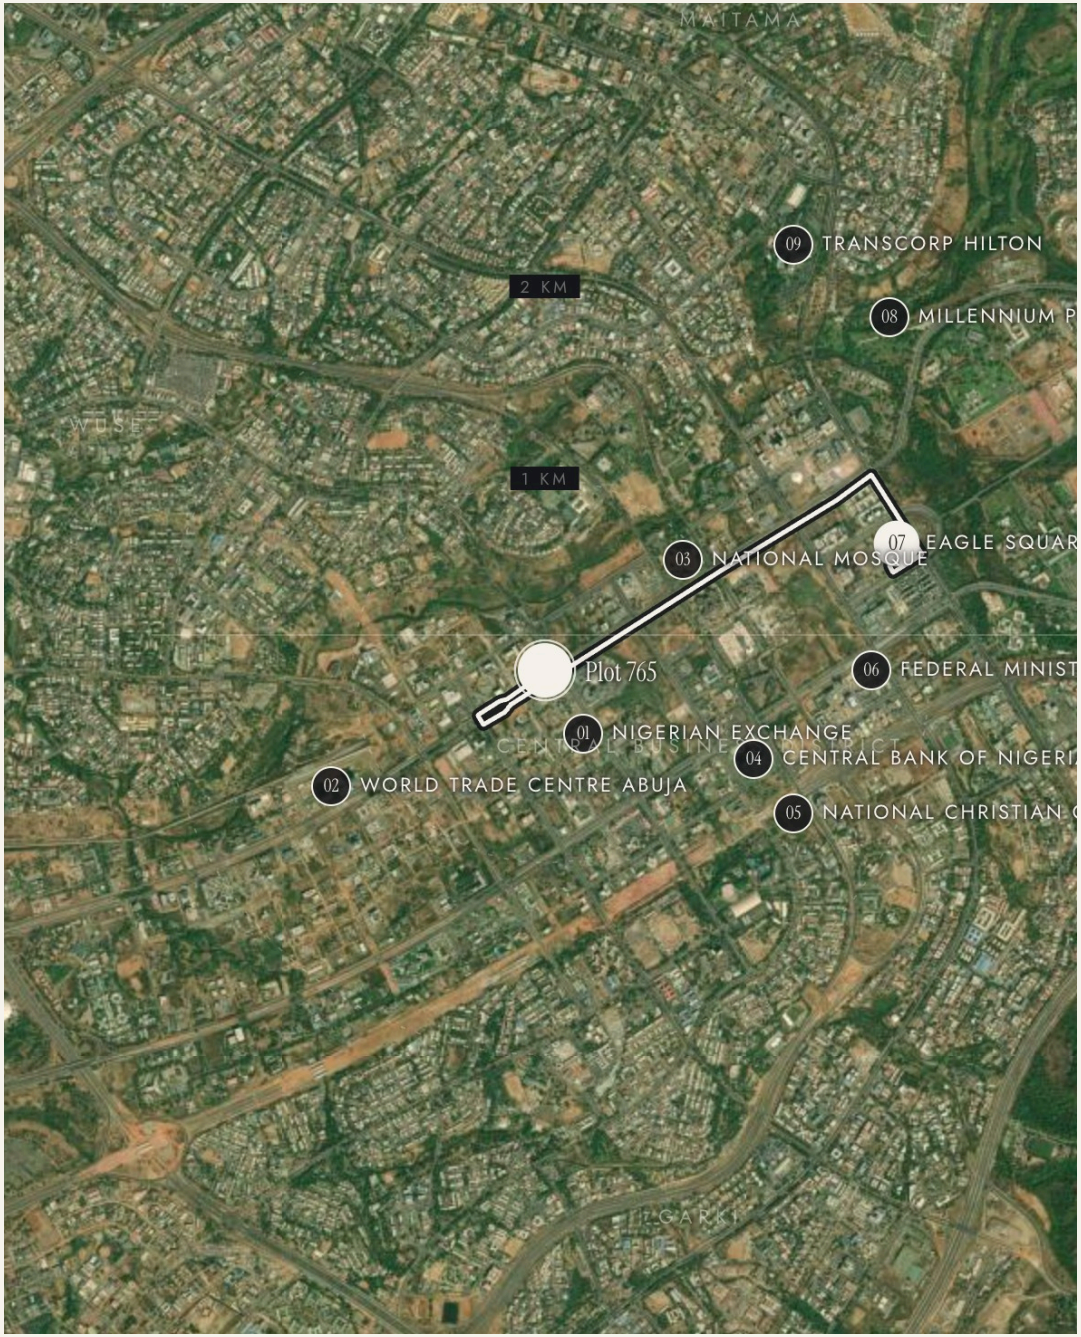

Levels one to five: suites of 300, 200 and 150 square metres, every desk near the glass.

05

The residences

Levels six to eleven: a three-bedroom and two two-bedrooms a floor, kitchens as rooms of their own.

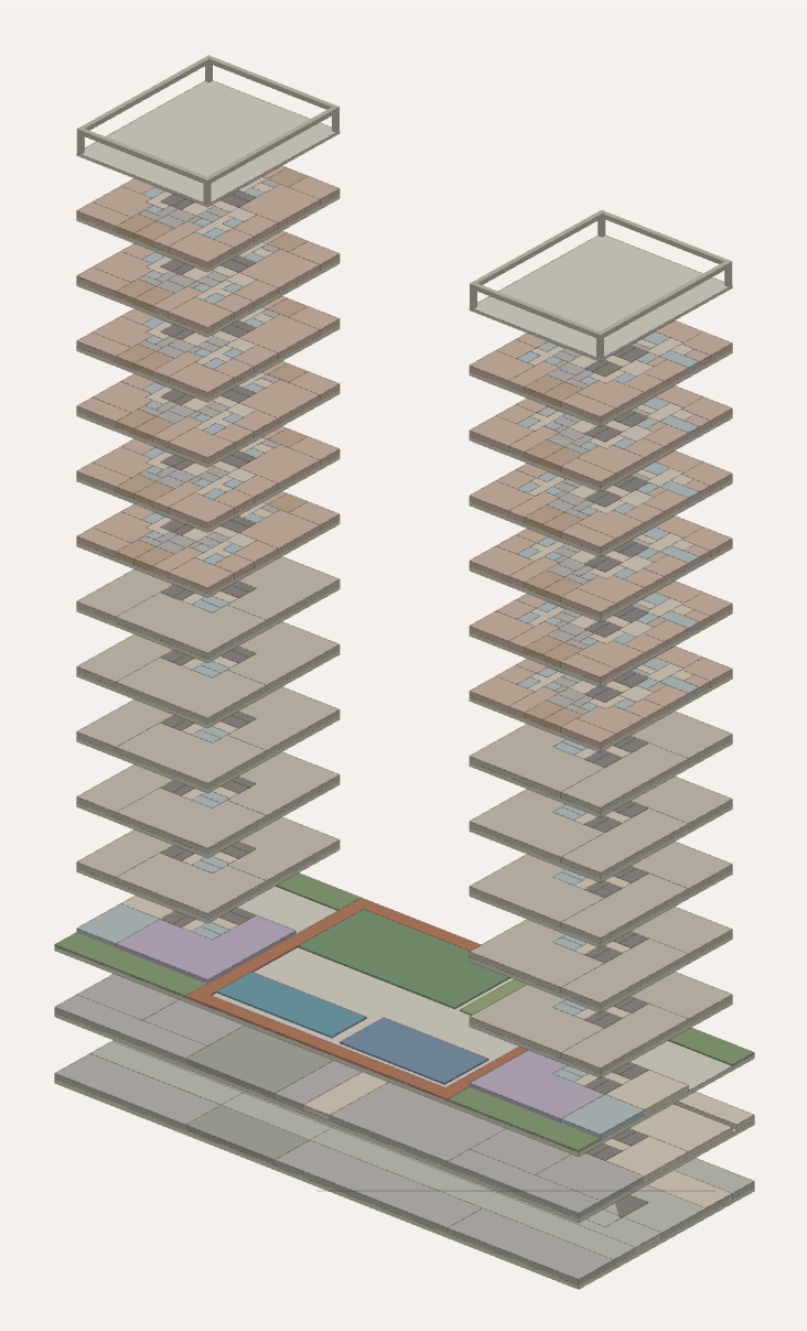

LOCATION

Central Area, Abuja.

Plot 765, Cadastral Zone A00: 1.11 hectares in the Central Business District, between the Nigerian Exchange and the National Mosque, with the Central Bank, the ministries and Eagle Square minutes away by road.

BASEMENT TO CROWN · 53.8 M

The section

8m	53.8m
LOBBY VOID	TO THE CROWN

Parking at minus four. One four-metre ground floor under everything. The mezzanine and the deck at plus four, with the lobbies rising through both as eight-metre voids. Then eleven floors of 3.8 metres, a roof at 49.8 metres and the open-frame crown above.

An open-air deck between the towers, and two gyms behind glass.

The deck

Two thousand square metres of open air between the towers, four metres above the street: track, court, pool, padel and lawn, with the gyms behind glass on either side.

The running track

A 170 metre lap around the whole deck, two and a half metres wide, past the gym glass of both towers.

Gym A · weights

Weights and machines on the mezzanine of tower A, 250 square metres behind twenty metres of glass onto the deck.

Gym B · studios

Spin, studios, treadmills and a calisthenics rig on the mezzanine of tower B, facing the deck from the other side.

INTERIORS

The space to work and live in.

Rooms drawn to the plan, finished in one calm language: lime plaster, honed stone, oak and walnut, bronze.

Office suites with their reception, meeting room and open floor near the glass. Apartments with the living room and the kitchen as separate rooms, a dining room between them, bedrooms on the perimeter and a recessed balcony off the living room. A double-height lobby, a reception lounge and a gym with a glass wall onto the deck in each tower.

IN EVERY TOWER

- Lobby 8 m void
- Reception and gym mezzanine
- Lifts 3 + service
- Office floors L1 to L5
- Residential floors L6 to L11
- Recessed balconies top six floors
- Open-frame crown

The master bedroom

More rooms.

The double-height lobby

The reception lounge, looking onto the deck

A 300 square metre office suite

The boardroom

The kitchen, a room of its own

A two-bedroom living room

Indicative interiors.

DESIGN

Architecture

Champagne-bronze fins over clear glass, a glazed two-storey base and an open metal crown: two compact towers drawn as one pair on a podium four tower-widths long.

The towers are twice as tall as they are wide; the podium is one storey; everything between them is open air. The fins give the glass its depth, and the crown gives the skyline a line to finish on.

Concept	Wrace Group
Visualisation	Mizan Qist Limited
Status	Concept study, October 2026. Not for construction.
Plates	750 sqm a floor, 100 sqm core, 3.8 m floor to floor

Wrace Group

Wrace Group, Abuja.

Wrace Group is an Abuja developer with a portfolio across real estate, agriculture, energy and media. It is bringing a fifteen-storey office block to Constitution Avenue, opposite the World Trade Centre, and proposes this scheme as its next address in the Central Business District.

The joint venture

The land comes in; the building comes out.

The landowner contributes Plot 765. Wrace Group designs, funds and builds the scheme and manages its delivery. The completed building, or the income from it, is shared in a ratio to be agreed between the parties before the design is developed.

The land Plot 765, 1.11 hectares

The development Design, approvals, funding and construction by Wrace Group

Timings follow the agreement and the approvals; a programme is drawn up with the design team.

The programme

Concept, design, approvals, construction.

Concept This proposal: massing, plans, renders and the schedule of areas

Design development Architects and engineers appointed; approval drawings

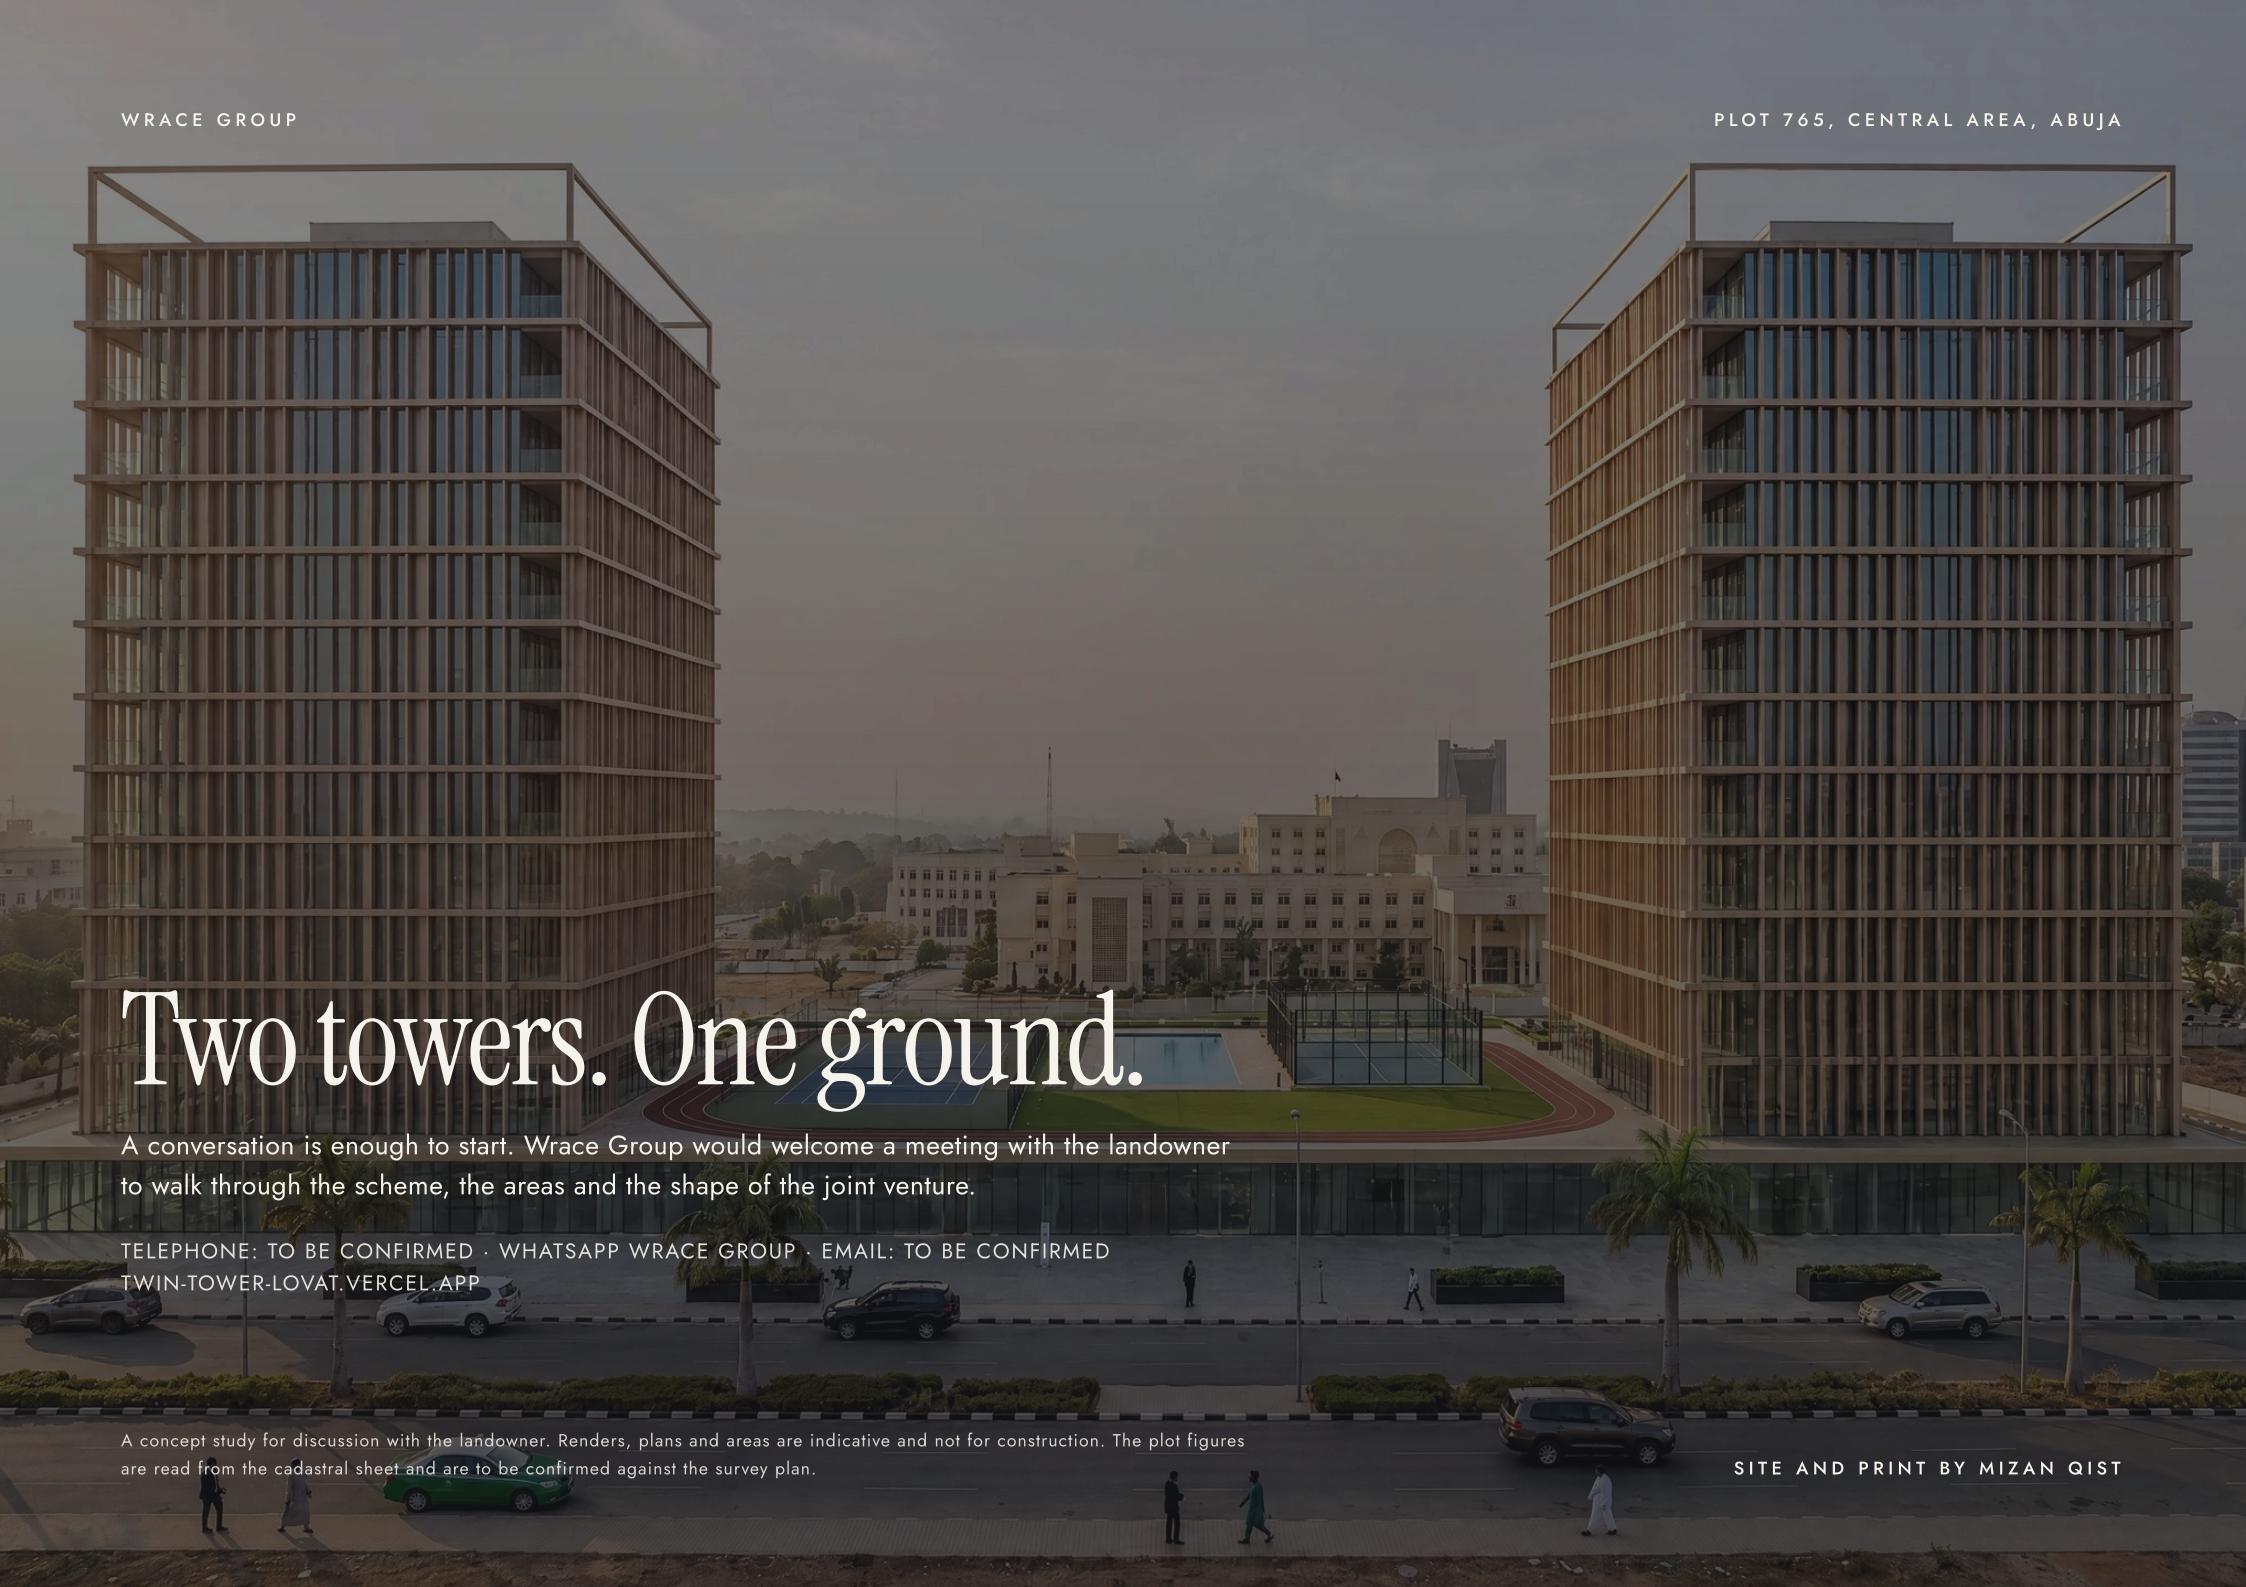

Approvals Development control and building permits for the Central Area

The address

Plot 765, Cadastral Zone A00, Central Area, Abuja.

Site 1.11 hectares, file MISC 54605

Podium 100 × 40 m, 4,000 sqm

Two towers. One ground.

A conversation is enough to start. Wrace Group would welcome a meeting with the landowner to walk through the scheme, the areas and the shape of the joint venture.

TELEPHONE: TO BE CONFIRMED · WHATSAPP WRACE GROUP · EMAIL: TO BE CONFIRMED
TWIN-TOWER-LOVAT.VERCEL.APP

A concept study for discussion with the landowner. Renders, plans and areas are indicative and not for construction. The plot figures are read from the cadastral sheet and are to be confirmed against the survey plan.
